

Welburn Hall Weekly

Friday 28th May 2021

Dear Parents / Carers

We have reached another half term break after the first part of our Summer Term, how quickly did that go?! It may not have felt like Summer with the weather but we don't need the sun to have fun! Our farm animals and food produce are thriving, the grounds are bursting with wild garlic and the children are loving the new farm classroom that Darren our Site Manager built. Moving on events have occurred and our college students and school pupils are looking forward to their transitional period. We celebrated the awareness of Mental Health and Autism Awareness and have raised funds for good causes such as:

*Jenna Kendell and her 100 miles in May - Jenna has completed 74 miles so far and has raised £140 which is fantastic. Only 3 more days to go...you can do it!!!

*The Enterprise Team making and selling keyrings - The ones that are left can be seen below and are £3.50 each

WANTED! KS5 are requesting plain pillow cases to create designs on. If you have any spare can you please donate them for our enterprise sessions. Thank you

Our SEMH group have worked hard on their mathematics this week focusing on division by sharing using blocks and other objects. As a treat for their efforts they then made homemade ice cream... they didn't share though!

Lower Semi-Formal enjoyed their Out and About at a local ice cream parlour and play park this week. They also finished their science topic of plants and growing.

The display board looks wonderful!

Don't forget our sunflower competition... let us know how you are getting on!

York college construction have been continuing with their brick laying and have learnt how to use a level. Very neat work... Anybody need an apprentice?

Here is the Lower informal group joining in with the live Music Machine session held on a Zoom call on Facebook on a Wednesday. The whole group really enjoyed it and the organisers even did a birthday shout out to two of our boys both were very excited.

The RDA team are back with us and have been working closely with two of our students, they even participated in a competition last week. Thank you for those parents that have completed application forms. Unfortunately, due to lack of volunteers / ponies there is a waiting list. We will let you know when availability changes.

This morning was a sensory circuit celebration where the students demonstrate all of their skills in the form of games and races. This happens at the end of each half term. Sarah Owens class showed off their work on the therapy balls, balancing and bouncing. Nyree's class demonstrated how to do the activities at each station including buggy boards, rolling in the tunnel, bouncing on the trampette and jumping over skipping ropes. We finished with some races. Everyone had a great time and the older ones were a great example and helped the younger children. Well done to Nyree!!!

Mr Scott's class went to the Deep Blue fish and chip shop in Helmsley for an end of term treat. They have all worked so hard completing some exams last week.
