EXCELLENCE

This week, our 3rd year College students went on the Peat Rigg residential. During the week we've completed a river walk, abseiled, zip lined, done a low ropes course, canoed, been a pro archer, crate climbed and learned bush crafts. During the trip they've all shown excellent resilience and perseverance! They've tested themselves and conquered their fears, all while being respectful and helpful teammates! They've learnt tons of skills, including orienteering, and one of our students even learned how to belay the staff down the abseiling course! They've developed their independent skills and shown great maturity in an unknown environment. We couldn't be prouder of the students and the exceptional tenacity they've shown!

Well done!!!

Sid's Terrible Truths!

Volkswagen & The killer rabbits

1: Did you know?

The Volkswagen Beetle was commissioned by Adolf Hitler.

2: Did you know?

It is thought that when Napoleon was most powerful during when the Treaties of Tilsit were signed, he had a rabbit hunt to celebrate the moment. He proceeded to be attacked by a horde of rabbits of which he had to flee from before he lost his ankles!
