

Maths

We will:

Use practical and explorative activities to learn new concepts in Maths.

Develop methods for multiplication and division and use these to solve problems.

Begin to explore and learn times table facts.

Identify coins and notes and use them to make different amounts.

English

As communicators we will:

Initiate and sustain positive interactions with adults and peers
Respond appropriately to peers during conversations.

As readers we will:

Develop phonic knowledge in order to decode words.
Grow the bank of words that I can read on sight.
Show an understanding of the things that I have read.

As writers we will:

Apply phonic knowledge to help me to spell words phonetically.
Write labels, captions, and short sentences.
Use speech to text programs me to record my ideas.

Science

Our younger pupils will be focusing on materials. We will investigate materials and their properties and identify what everyday objects are made of.

Our older pupils will be studying rocks. We will look at different types of rocks, how they are formed and their properties.

Other Curriculum Areas

PE –

Take part in team games and learn about how we can manage our emotions when our team wins or loses.

Computing-

We will be looking at programming.

Our older pupils will explore accessing video clips and reviewing online content.

Spring 1

Nurture 1

Teacher: Daisy Dunning

Topic:

The Great Fire of London

Castles

Other Curriculum Areas

Art and Design Technology –

Our younger pupils will be exploring colour, texture, and pattern.

Our older pupils will be working on designing castles, including designing shields and making a drawbridge model.

Humanities –

Our younger pupils will be focusing on The Great Fire of London

Our older pupils will study castles, including a local area study.

Personal, social and emotional development

This half term, we will be focusing on identifying, communicating and managing our feelings. This will include what we can do and who can help us when we experience uncomfortable feelings.

We will also be continuing our work on life skills through our food tech lessons and our out and about sessions.
