

## Maths

### Open Awards Functional Skills Maths

- Addition, subtraction, multiplication and division
- Place value

As many of our students are in the run up to their exams, we will begin practicing past paper questions alongside our learning!

## English

### Open Awards Functional Skills English

- Writing - Creative writing
- SPAG- Capital letters, full stops, paragraphs, exclamation marks.
- Harry Potter and the Philosophers Stone

Alongside our class book of Harry Potter, students will continue to improve on their writing and reading skills.

## Science

- I am a scientist
- Light

Students will start the term discussing what science is and what makes a scientist. They will then explore the various properties of light, including reflection and shade. We will also discuss sun safety.

## Other Curriculum Areas

P.E.

Own Topic

Creative Arts

# Autumn Term Formal KS4

Teacher: Miss C Young

## Other Curriculum Areas

Out and About

Food Tech

Personal Development Education (PDE)

## Geography

- Our world

The students will begin the Our World module by learning about the local area, including the social and environmental factors. The students will then compare this region to our first case study of London. Before the October holidays we will introduce our next case study: Lagos!

## ICT

### Open Awards IT User Skills

- Finding information
- Presenting information

The students will start their ICT qualification by using ICT to source and present information. This will include screenshots, word documents and PowerPoints.

## Careers and R.E.

- Christianity
- Judaism

The students will initially learn all about Christianity. This will include the origins of the religion, how people worship and a trip to visit a local church. We hope to begin our next topic of Judiasm just before the holidays.
