Heads-up!

Dear Parents and Carers

Great news this week, we've been authorised to advertise for another permanent teacher and TA. The adverts will be live now and we hope to appoint without delay. We welcome 2 new staff today as well, all very exciting!

I wanted to acknowledge the great fundraising effort from the HSA and also update you on progress with the Sunshine Coach application. Our application has been live for over a year now and we were advised last week that it will be 2025 before any decisions are forthcoming from them. This makes all the fundraising even more important and thank you to all the parents, staff and pupils involved!

Covid is doing the rounds again, as is the winter flu, please can we all be super vigilant as our children are more at risk than others at this time. We have already had a fair amount of sickness amongst the pupils this term.

Our sincere and heartfelt thanks must go out to the Pickering and District Rotary Club for our fantastic day out on Tuesday at Flamingo Land.

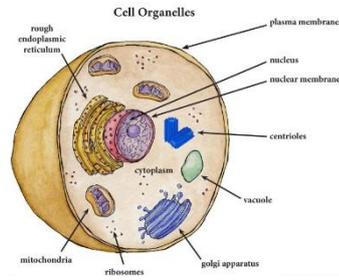

It really was an incredible day – enjoyed by absolutely everyone!

Thank You

In Upper Formal 4's science lessons they've been learning all about cells and the names and functions of cell organelles.

Thanks to the incredibly generous donation from Liverpool John Moore's University, our students got to see a range of cells, including stem cells, red blood cells and muscle cells, up close with these fantastic light microscopes! Some students were even able to identify the cell membrane and the nucleus of some cells. They'll most definitely be using these again throughout their biology topic.

During the summer holidays, our fantastic site manager has built and decorated a brilliant outside learning environment for the Semi-Formal classes, to be used to enhance and inspire active learning.

Over the first few weeks, there has been some amazing maths cafe lessons, STEM building, fun phonics and a general enjoyment of the area - the children are loving it!

Thank you, Darren!
